CELEBRATING NURSE'S WEEK, 2018!

National Nurses Week begins each year on May 6th and ends on May 12th, Florence Nightingale's birthday. This year, Sunset Retirement Communities' paid tribute to our hard working team in a variety of ways, noting the nurses' commitment to protecting, promoting, and improving health care for all!

Sunset House celebrated the "Super Hero" dedication of its nursing team.

A skit was acted out for residents and staff, featuring a menacing "villain", who was captured by Sunset House's Nursing team. Way to save the day, Nurses! A lot of laughs and fun was had by all!

The rocks were hidden around Sylvania and Ottawa Hills and even on both campuses! Finders of the painted rocks were asked to post a photo of their find on social media with the hashtag #SunsetRocks!

ASHANTI HOSPICE

BREAKING DOWN THE WALLS OF HOSPICE MYTHS

Over the next few issues, we'll explore common myths and misconceptions about Hospice care. As always, if you have any questions regarding Ashanti Hospice or hospice in general, please feel free to contact us at: 419-724-1047.

Myth: *Hospice is only for people in their last days of life*

Fact: Hospice care is for patients who have been given a terminal diagnosis and have less than six months to live if the illness runs its course, but receiving hospice care doesn't mean that death is imminent. The earlier you receive hospice care, the more opportunity there is to stabilize your medical condition. While some families and patients wait until the final days of life to contact hospice, hospice is available for many months and can make that time more about living well than dying.
